

ON-SITE PROGRAM

A day at De BosBoerderij

Connect with your team while working on ecological restoration.

Learn about the regenerative power of syntropic farming and how we can play a part, as individuals and communities.

With your hands in the soil, you and your team can be inspired by nature and contribute to a healthier world!

WHO IS THIS FOR?

For teams passionate about nature, sustainability, and food. In this original activity, you'll actively contribute to ecosystem restoration, enjoy a fun day in the field and boost your team spirit!

- Half day (morning or afternoon).
- Indoor and outdoor activities.
- Healthy lunch, locally sourced.
- In the The Hague and Leiden area.

OUR MISSION

De BosBoerderij is working to restore natural ecosystems and strengthen the relationship between people and nature through syntropic farming.

WHAT WILL YOU DO?

We'll start with an interactive tour of the De BosBoerderij plot, where you'll learn how we collaborate with nature.

You'll deepen your knowledge through a game set up in the food forest, played in smaller teams.

Next, you'll get to work and contribute to the daily farming operations and experience what it's like to actively contribute to nature restoration.

Another highlight is the healthy and delicious meal prepared by De Vrije Tafel (outdoors if the weather is nice).

At the end of the day, you'll go home satisfied and with new insights!

WANT CUSTOM SOLUTIONS?
HELLO@DEBOSBOERDERIJ.EU

- Projects in your company's name
- CO2 credits and biodiversity impact
- Team building exercises
- Produce for the office

ON-SITE PROGRAM

Half day

LOCATIONS

- WIJdehorst (Wassenaar) OR
